COMPANY PROFILE BROCHURE

Safety isn't expensive
It's priceless “

? WHO WE ARE

Rawafd International Company was established in Riyadh in 1995. Over the decades, we have evolved into an integrated group renowned for our extensive expertise in Liquefied Petroleum Gas (LPG) and Fire Fighting Projects both locally and internationally. With over 40 years' of identifying and meeting the needs of this complex industry we know that your business depends on quality and safety. That's why safety, reliability and excellent after sales service are always foremost in our thinking for the systems and equipment that we provide.

At Rawafd International Co., we pride ourselves on maintaining long-term relationships with our suppliers and partners across the globe. This commitment has enabled us to deliver high-quality services and solutions that meet the diverse needs of our clients.

As we continue to expand our reach and enhance our capabilities, we invite you to explore partnership opportunities with us. Together, we can achieve remarkable success in various sectors.

? OUR CONCEPTS

At the heart of our mission lies a commitment to safety and innovation, particularly in the realm of LPG and Fire Fighting solutions. Our concepts are meticulously designed to address the unique challenges faced by industries that utilize liquefied petroleum gas (LPG). With a growing emphasis on safety regulations and environmental responsibility, it's imperative that businesses adopt advanced solutions that not only protect their assets but also ensure the well-being of their personnel.

? WHY CHOOSING RAWAFD?!

When it comes to LPG and Fire Fighting solutions, choosing us is not just a decision; it's a commitment to safety, reliability, and innovation. We understand that in industries where risk is a constant factor, you need partners who prioritize your safety above all else. Our extensive experience in providing top-notch LPG solutions ensures that your operations run smoothly while adhering to the highest safety standards.

Our Fire Fighting solutions are meticulously designed to address the unique challenges of your environment. With cutting-edge technology and expert knowledge, we offer systems that are not only effective but also tailored to meet your specific needs. By choosing us, you gain access to unparalleled support and expertise that can make all the difference in emergency situations.

Furthermore, our dedication to continuous improvement means we stay ahead of industry trends and regulations, ensuring you receive the most advanced solutions available. When it comes down to it, choosing us means investing in peace of mind—knowing that you're equipped with the best LPG and Fire Fighting solutions on the market. Don't leave safety to chance; partner with us for dependable protection today!

OUR MESSAGE

At the heart of our vision lies a commitment to safety and innovation in LPG and Fire Fighting solutions. We believe that every environment, whether residential or industrial, deserves the highest level of protection against fire hazards. Our mission is to lead the industry by providing cutting-edge technologies and reliable systems that ensure peace of mind for our clients.

Join us as we pave the way for a safer tomorrow through innovative LPG and Fire Fighting. Together, we can transform safety protocols and set new benchmarks in fire prevention and response strategies, making every space safer for everyone.

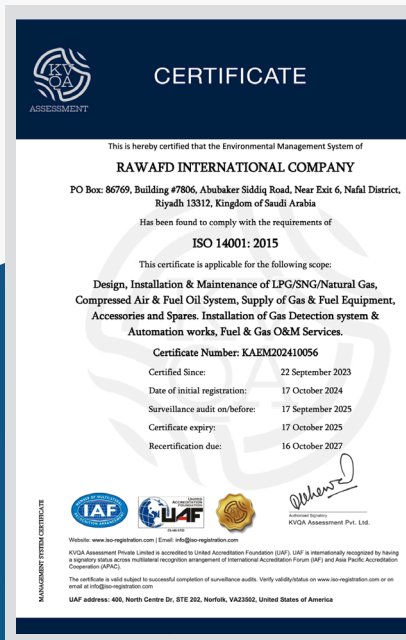

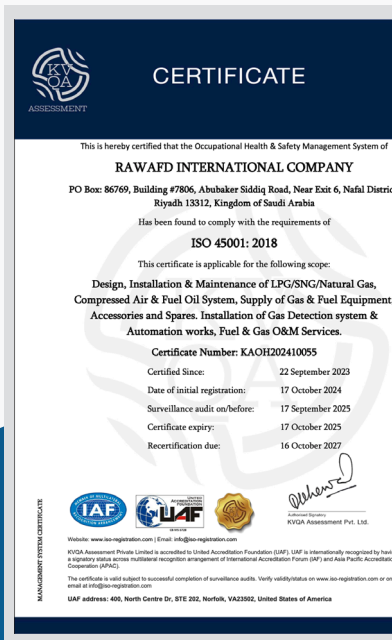

OUR MISSION

Become the Most Reliable Market Leader in the Total Gas and Safety Solutions

OUR VISION

We envision a future where LPG usage is not only efficient but also entirely safe, with advanced Fire Fighting solutions seamlessly integrated into everyday operations. By investing in research and development, we are dedicated to creating products that not only meet but exceed industry standards. Our comprehensive approach combines state-of-the-art equipment with unparalleled expertise, ensuring that we deliver customized solutions tailored to each unique scenario.

OUR COMMITMENT TO EXCELLENCE

Excellence is not just a goal; it's our standard. At **RAWAFD**, we are dedicated to delivering unparalleled quality, innovation, and safety in everything we do.

- We proudly introduce ourselves as an efficient and specialized professional company, serving as consultants, engineers, turnkey contractors, and suppliers. We provide equipment and spare parts for various types of compressed gases, including LPG, propane, butane, nitrogen (N2), and LNG, as well as storage, handling, mobile systems, and fuel processing systems such as oil fuel, LDO, and HSD.

Our products and services comply with Saudi specifications, are approved, and are designed to withstand the Saudi climate and environment, adhering to the Saudi Code 501/801 and NFPA standards (54/58 for gases and 30/35 for fuel). Additionally, we ensure compliance with Saudi Arabia's LPG specification (SASO-85) for testing and SASO-345 for industrial safety and gas system protection. We also follow the standards for the installation and construction of LNG networks (SASO-316).

With extensive expertise in mechanical, electromechanical, electrical, and industrial works, we are proud to have a large team of highly trained engineers and technicians, certified in Europe and America by the manufacturers of the components used in our projects."

○ We are also proud to have the following memberships :

- Member of the WLPGA World Gas Association
- Member of the National Society for Fire Protection (NFPA)
- Iso 9001:2015 - iso 14001:2015 - iso 45001:2018
- Ministry of Interior License - Supreme Commission for Industrial Security for wholesale of fire prevention and protection devices, equipment and materials
- Ministry of Interior License - Supreme Commission for Industrial Security for installation and maintenance of fire alarm devices and equipment

○ Rawafd is classified by the Ministry of Municipal and Rural Affairs as follows :

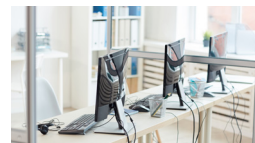

Mechanical Works

Industrial Works

Electrical Works

Technical office

Rawafd is comply with the approved Saudi specifications and in line with the Saudi climate and environment which falls under the Saudi Building Code 801/501 based on the American Building Code ICC and the European Code CE and the International Electro-technical Commission Code IEC according to NFPA-54/58/70/03/35 for Gases and Fuels.

“We are pleased to inform you that we can execute your projects and businesses on a turnkey basis. Our services include site inspection, preparation, and approval of designs, as well as manufacturing tanks in compliance with the required standards and specifications approved in Saudi Arabia.

• We supply and install pumps, compressors, vaporizers, pipes, pipe fittings, warning systems, and safety and security systems to the highest standards. Additionally, we provide all necessary accessories, project commissioning, testing, painting, cleaning, and complete system operation. We also coordinate with local specialists to ensure the approval and certification of the works.”

• We supply, install, maintain, and operate fully automated control systems for LPG and fuel systems, including level monitoring, pressure control, gas leak detection, automatic electrical shutoff, and remote control operations.

• We also perform re-verification and inspection of LPG tanks, which is mandatory under NFPA 54 standards. This includes inspections every 5 years and detailed testing every 10 years. Detailed testing involves measuring tank thickness using ultrasound, removing emergency valves, closure devices, and tank accessories for testing or replacement with new components, conducting nitrogen pressure tests, and performing all necessary tests for the tank
